iEX Tokenomics

iEX is not just a Token— it's first of it's kind **AI-native Blockchain currency** built to learn, adapt, and self-regulate based on **real-time user behaviour, transaction patterns, and emotional sentiment**. It will be governed by intelligent smart contracts that evolve through embedded **AI logic**, Formula * iEX becomes smarter with each interaction, dynamically adjusting access, incentives, and privileges. **iEX the Smart Currency Token marks the birth of emotionally-aware, self-governing Global Currency, designed for a human + AI economy.**

This Smart Currency will be minted on EonX AI Multi-Agent Blockchain, which is first of it's kind blockchain in making embedded with

Soft Cap: 200 Million iEX Tokens	Hard Cap: 500 Million iEX Tokens
---	---

Initially, the **200M soft cap supply** will be **distributed to the EonX community** through **rewards, participation, and engagement initiatives.**

Once the soft cap is fully distributed, the supply will move toward the hard cap phase — but only through community governance.

Only “Early Avengers” and “Knights of Eonverse” NFT Holders will have voting rights to approve the transition from soft cap to hard cap.

This ensures that EonX AI Smart Currency Token expansion remains community-driven, decentralized, and fair.

iEX Price Growth

BUYERS	TOKENS WORTH	TOKENS WORTH
Phase 1	First 10 Million Tokens	\$1 per token
Phase 2	Next 30 Million Tokens	\$1.5 per token
Phase 3	Next 30 Million Tokens	\$2 per token
Phase 4	Next 30 Million Tokens	\$3 per token
Final Phase (Until 200M Soft Cap): Remaining Tokens — \$5.00 per token		

iEX Tokenomics Cont.

iEX Offer Price for CBP Buyers

BUYERS	TOKENS WORTH
First 10,000 Buyers	\$100 worth of EonX iEX
Next 10,000 Buyers	\$60 worth of EonX iEX
Next 10,000 Buyers	\$50 worth of EonX iEX
All buyers after this get	\$30 worth of EonX iEX

Founder And Management Board Allocation

20% of the total Smart Currency Token distributed is allotted for the Founder and Management Board. 10% of the allotted 20% is automatically generated by the blockchain.

From the **20% of tokens allotted** for the EonX Founder & Management Board:

- 10% is automatically generated by the blockchain and allocated to a governance smart contract. These tokens represent 70% of total share within the Management Board and are reserved exclusively for founders and core contributors.
- The remaining 10% of the allotted tokens account for the other 30% of Management Board Share. These tokens will be available in the open market, allowing any community member to purchase them and gain entry into the EonX Management Board (max. 30%) through Smart Currency Token ownership.

iEX Token Utilities

First of it's kind Smart Currency Token

1. Gas for Transactions & AI Smart Contracts

iEX powers all transaction fees and AI-agent driven smart contracts across the EonX AI Layer 1 blockchain.

2. AI-Optimized Staking & Network Security

Stake iEX to secure the network and participate in validator pools managed and optimized by AI for maximum efficiency and yield.

3. Dynamic DeFi Operations

Use iEX for lending, borrowing, AI-based yield farming, and liquidity pools that adjust dynamically based on market data and user behaviour.

4. Evolving Utility NFTs

iEX fuels the evolution of NFTs that offer real-world utility: ownership, partnership rights, access to rewards, and ecosystem governance.

5. Governance & Voting Rights

Hold iEX to vote on proposals, ecosystem upgrades, and AI governance decisions — enhanced by KYC-based verified voting to prevent manipulation.

6. Protocol-Level KYC Integration

iEX links to encrypted identity for each user; enables verified interactions across wallets, dApps, and smart contracts — unlocking corporate and regulatory integration.

7. Real-Time AI Pricing & Anti-Manipulation Formula

iEX pricing is auto-adjusted by a proprietary AI formula using 52-week market data, user activity, and social sentiment — protecting against pump-and-dump schemes.

8. Rewards in Community Building Program (CBP)

Hold iEX while automatically gaining access to **CBP Virality Model** and sharing content through Social Media Platforms, and earn massive rewards.

9. Cross-Ecosystem Payments

Use iEX as a universal currency across AI services, enterprise APIs, partner dApps, and gaming environments within and beyond the EonX AI chain.

10. Access to Premium AI Services

Pay with iEX to unlock enterprise-grade AI APIs, tools, and agent services within the EonX AI ecosystem.

EonX i Currency – Smart Currency Token Disclaimer

EonX(iEX) is a utility Smart Currency Token used within the EonX AI Ecosystem and governed by smart contracts. It does not guarantee returns, and its value may fluctuate. EonX(iEX) is not a security or investment product.

By interacting with EonX AI, you accept that:

- The EonX team is not liable for losses due to user error or third-party issues.
- You are solely responsible for any legal or tax obligations in your country
